About Me

I'm currently focused on ICT and networking as part of my degree in Information and Communication Engineering, and I'm very interested in enterprise ICT solutions, infrastructure, and digital transformation. I'd love to grow in this field.

Skills

- Router/Switch Configuration
- Static & Dynamic Routing
- DHCP, VLAN Setup, Subnetting
- Cisco & GNS3
- Linux Server Basics Management (SSH, systemctl, Nginx, firewall)
- UX/UI Design & Network Design
- Web Development

Education

- **Bachelor of Information and Communication Engineering** 2021 - Present
Currently focusing on ICT and Networking. Expected graduation 2026
- **Club d'étude des Langues Étrangère (CLÉ)** 2020 - 2023

Experience

- **Network Lab Project** 2023-2025
Configured small - to medium-scale networks using Cisco Packet Tracer and real devices.
Implemented VLANs, static and dynamic routing, and DHCP.
Simulated routing behavior and failover.
- **Bookworm** 03/2025-06/2025
A full-stack book store web app built with Vue.js and NestJS.
[Link](#)
- **E-Commerce** 11/2024-01/2025
Developed a Web Application for electronics sales. Front-end built using Vue.Js, Vite and Pinia.
[Link](#)
- **Task Manager App** 04/2025-06/2025
A TODO mobile app built using Flutter and Dart.
